

For more than 30 years Bunnell's guiding principal has been, "We Save Babies". We are committed to a better understanding of the use of High Frequency Jet Ventilation through the support of independent research. Bunnell, Inc. has created a new research initiative by providing funding for completion of studies related to the use of HFJV. Applications will be considered by Bunnell to determine allocation of funding. Studies may be prospective, retrospective, bench studies, etc.

Studies may be completed by individuals including but not limited to physicians, fellows, nurse practitioners, nurses, respiratory therapists, or respiratory care students enrolled in a graduate level program.

Applications are accepted year-round and can be submitted online or sent via email to the address indicated on the application to the Bunnell Research and Clinical Studies Coordinator. Applications are reviewed on a regular basis and notice of receipt of application will be communicated in a two-week time frame from date of submission. Application status will be updated to the primary contact.

For further information, please contact the Research and Clinical Studies Coordinator at [research@bunl.com](mailto:research@bunl.com)

We look forward to hearing your ideas on the advancement of critical care, as together "We Save Babies"!
